

Finding the Perimeter

The **perimeter** of a figure is the sum of the lengths of its sides.

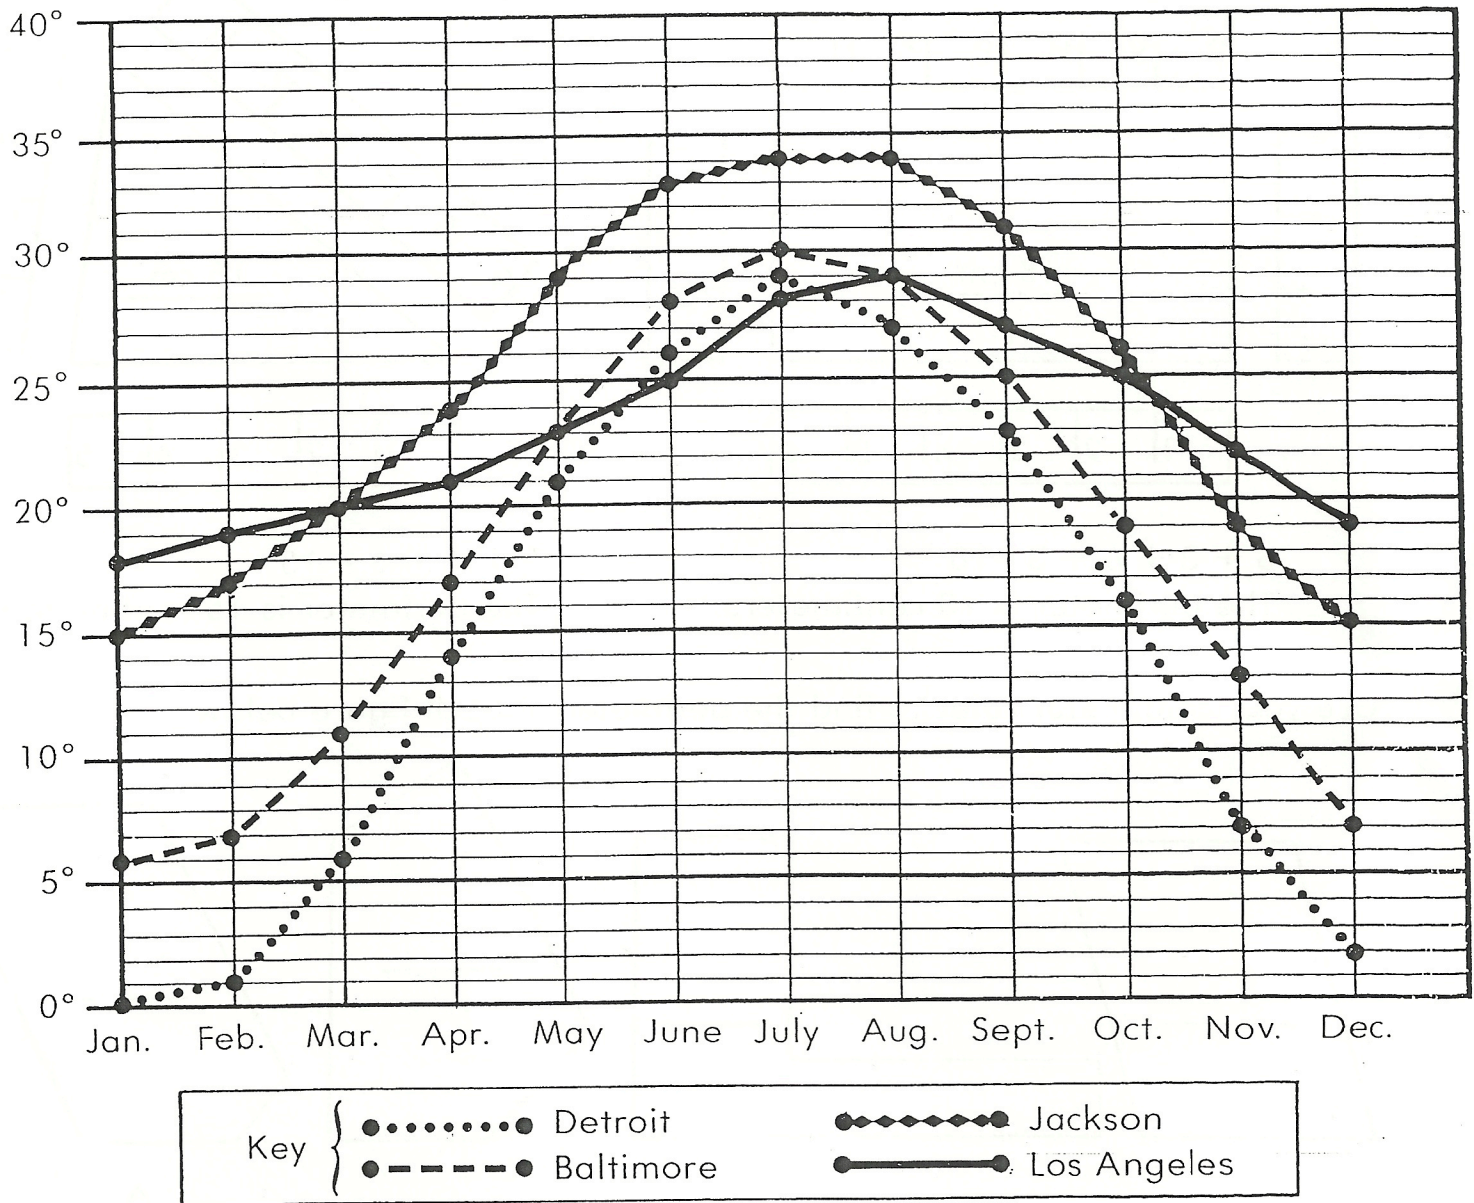

Use your centimeter ruler to find the perimeter of each figure below.

Average Temperatures

Average monthly high temperatures (in degrees Celsius)

1. Give the average September temperature for each city:

Detroit _____ Los Angeles _____

Jackson _____ Baltimore _____

2. Give the difference between the June temperature in Jackson and that in:

Detroit _____ Baltimore _____ Los Angeles _____

3. Give the difference between the February temperature in Detroit and that in:

Baltimore _____ Los Angeles _____ Jackson _____

4. In what months are the temperatures in Los Angeles and Baltimore the same?
